Educational Database

1. Database main layout

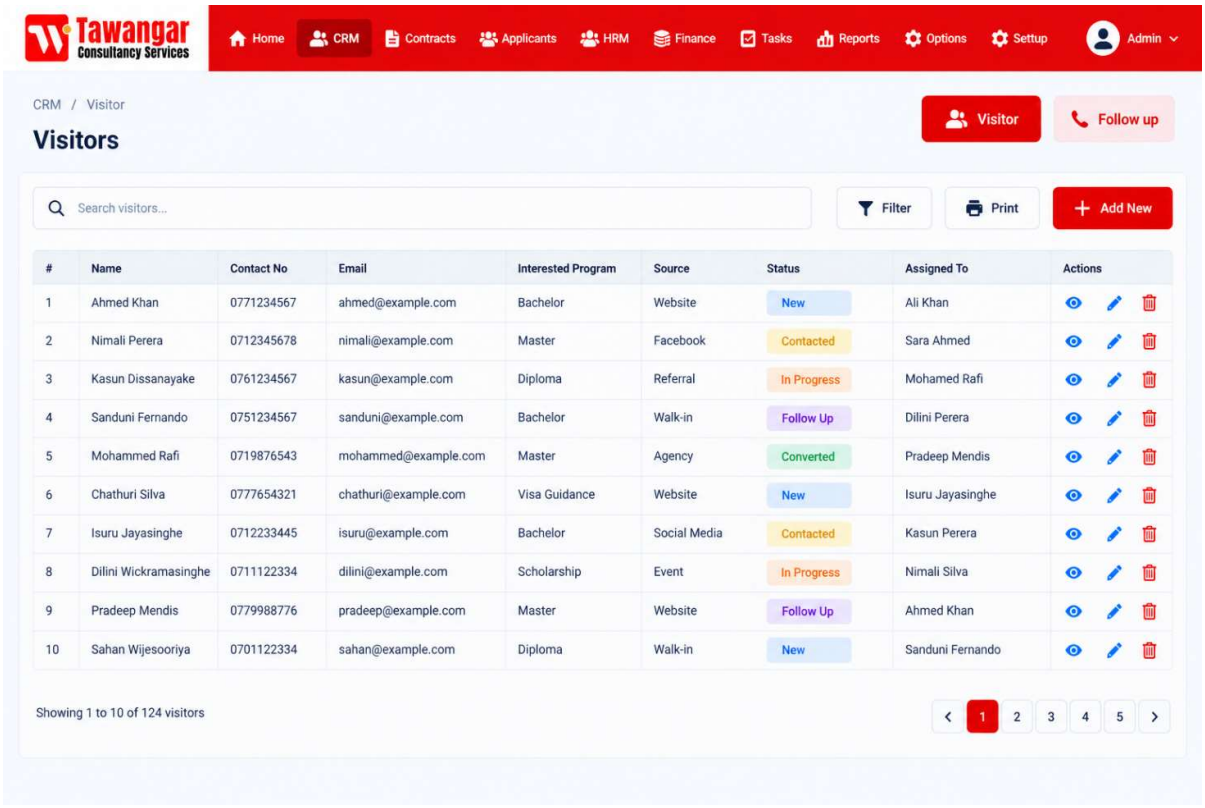

2. When We click on CRM section /Menu

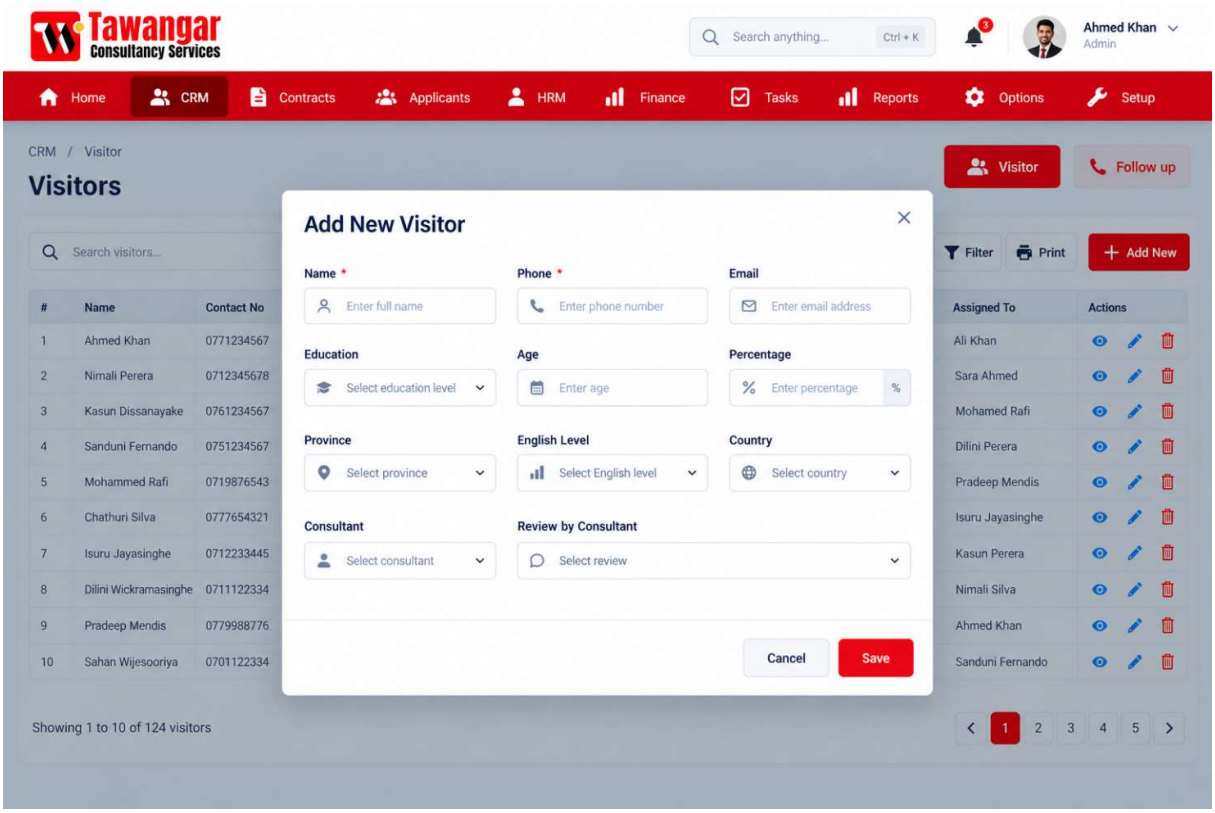

In here we have 2 sections (Visitor and Follow-up)

3. When we click in any section of CRM/ for example visitor

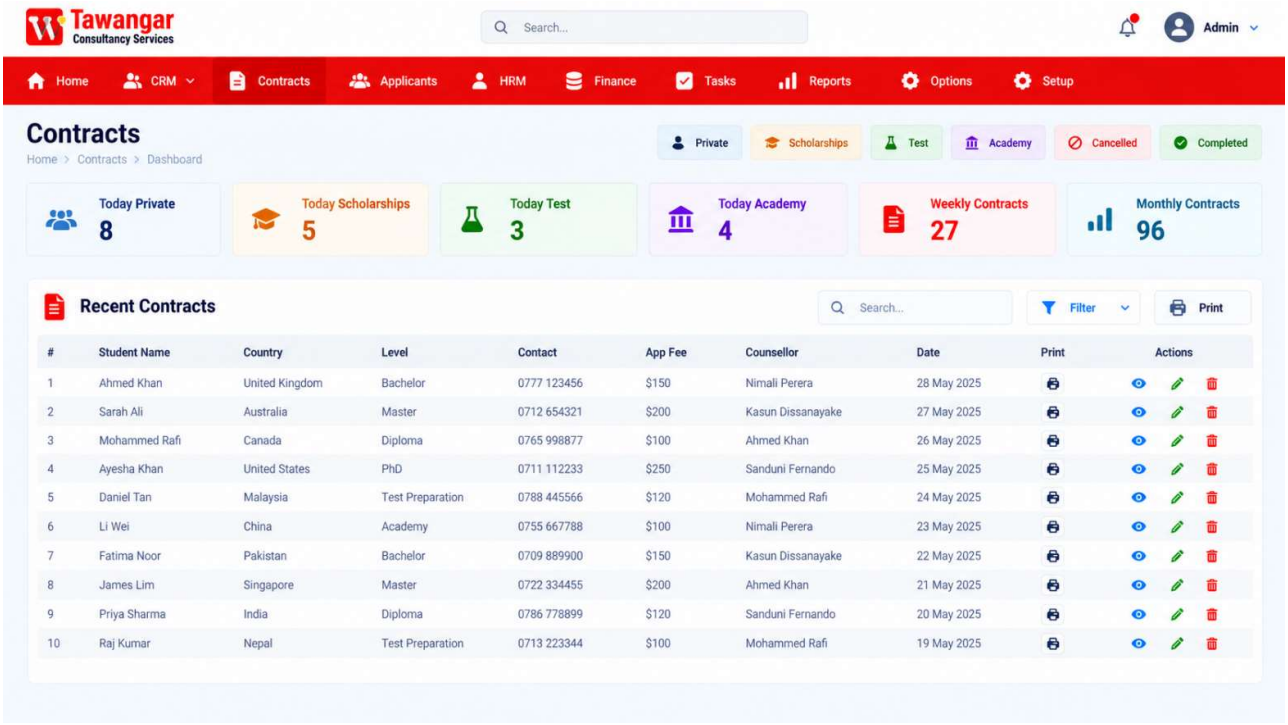

Note: (**super Admin, Admin view all, leader and reception**) but any Counselor have there own list only.

4. When we click on new visitor show a popup for inserting data

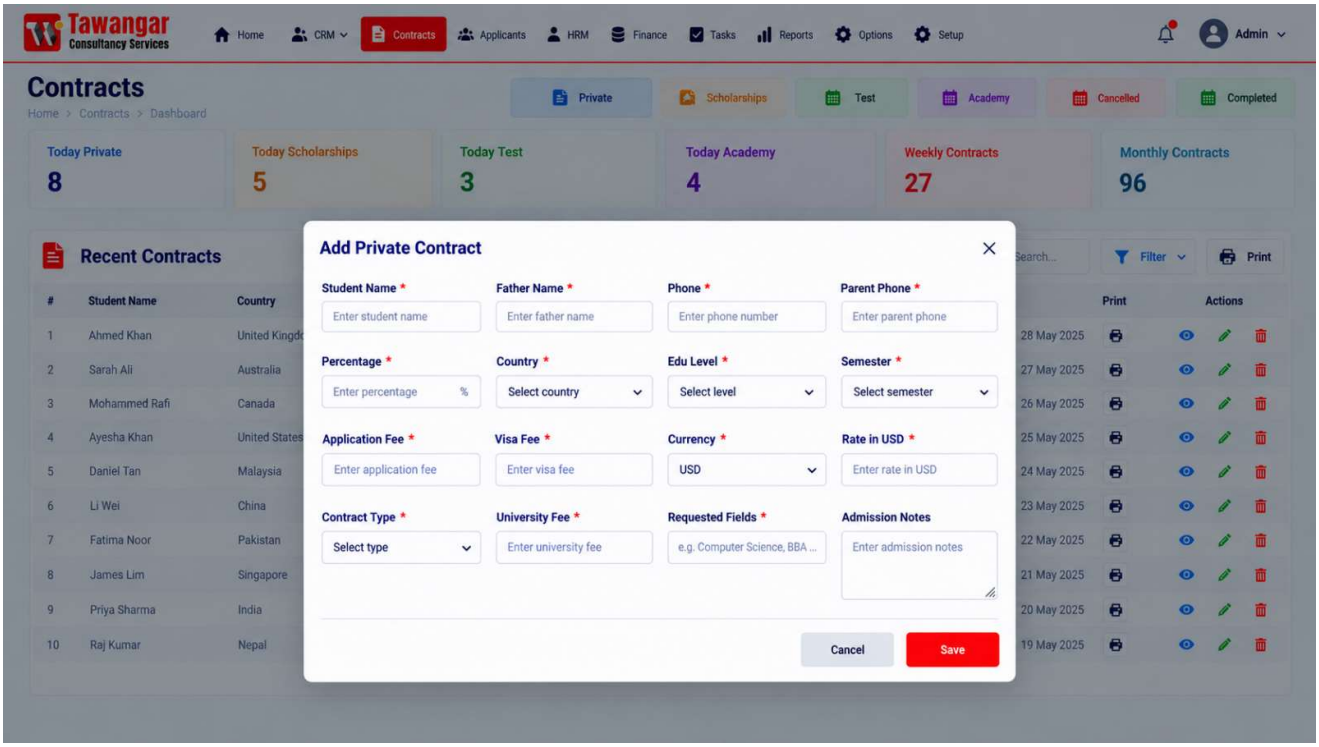

Note: we can't add follow up just consultant when select Follow up on review visitor duplicate to follow up list

5. When we click on contract

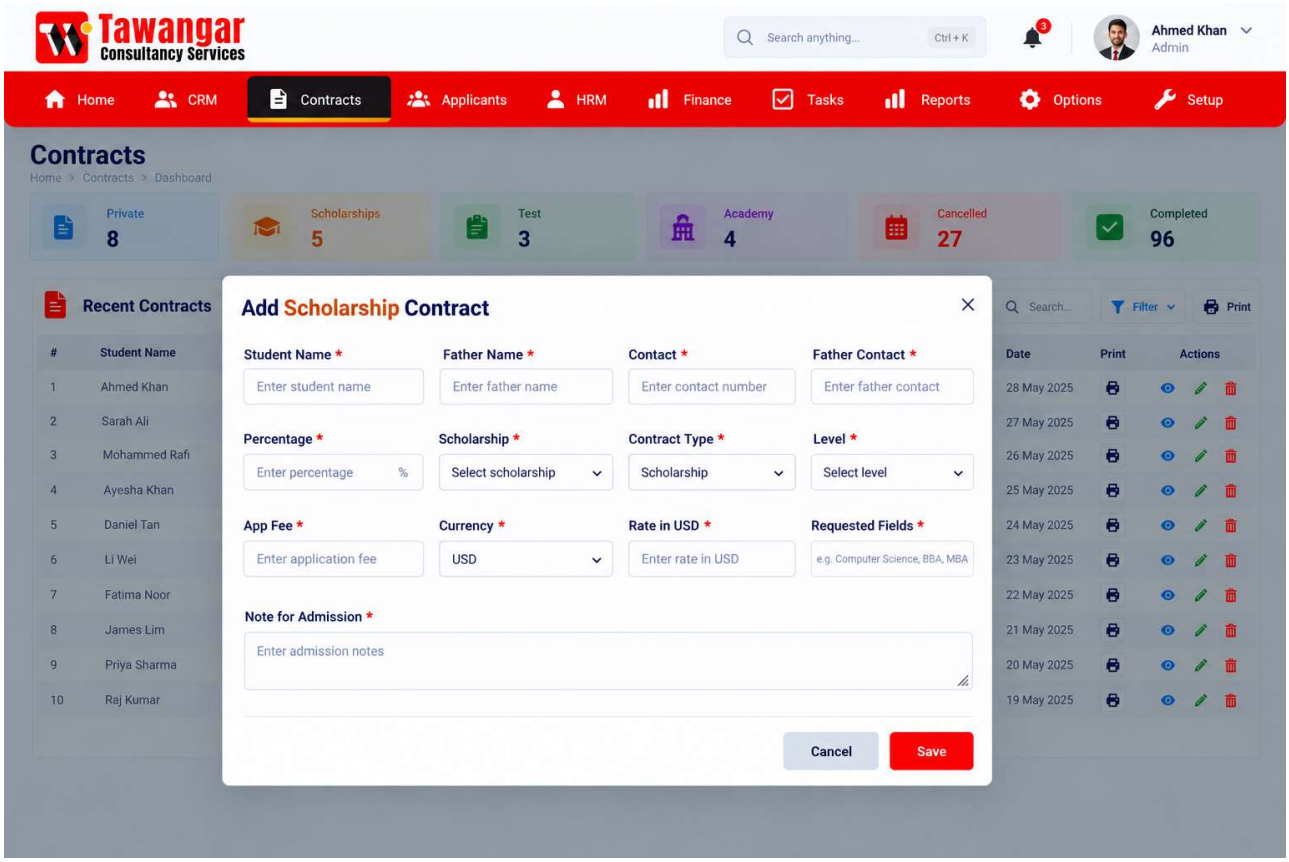

Note: admin can view all, but any consultant can view only there contract and status

6. When We click on Contract/ **Private**

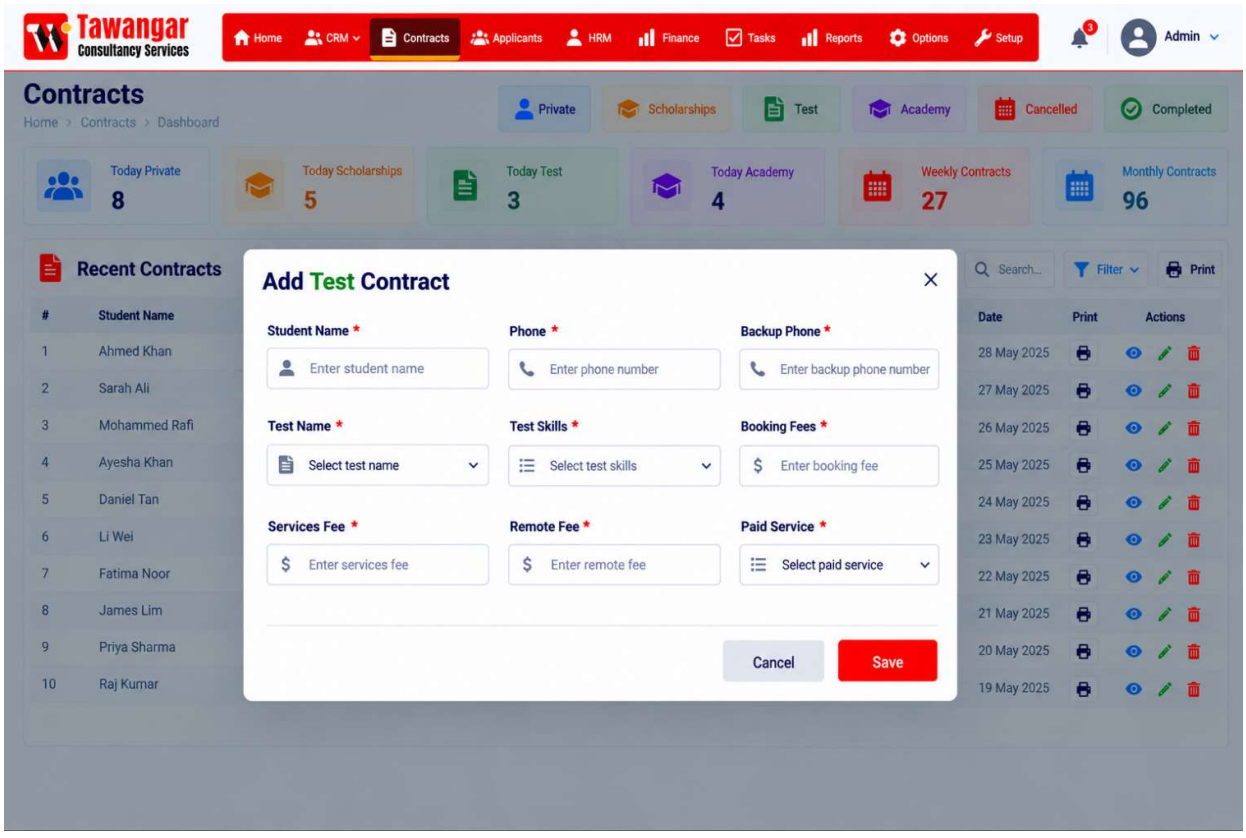

Note: top logo bar and menu bar is same | **Contract text/Template print according country**

7. When We click on Contract/ **Scholarships**

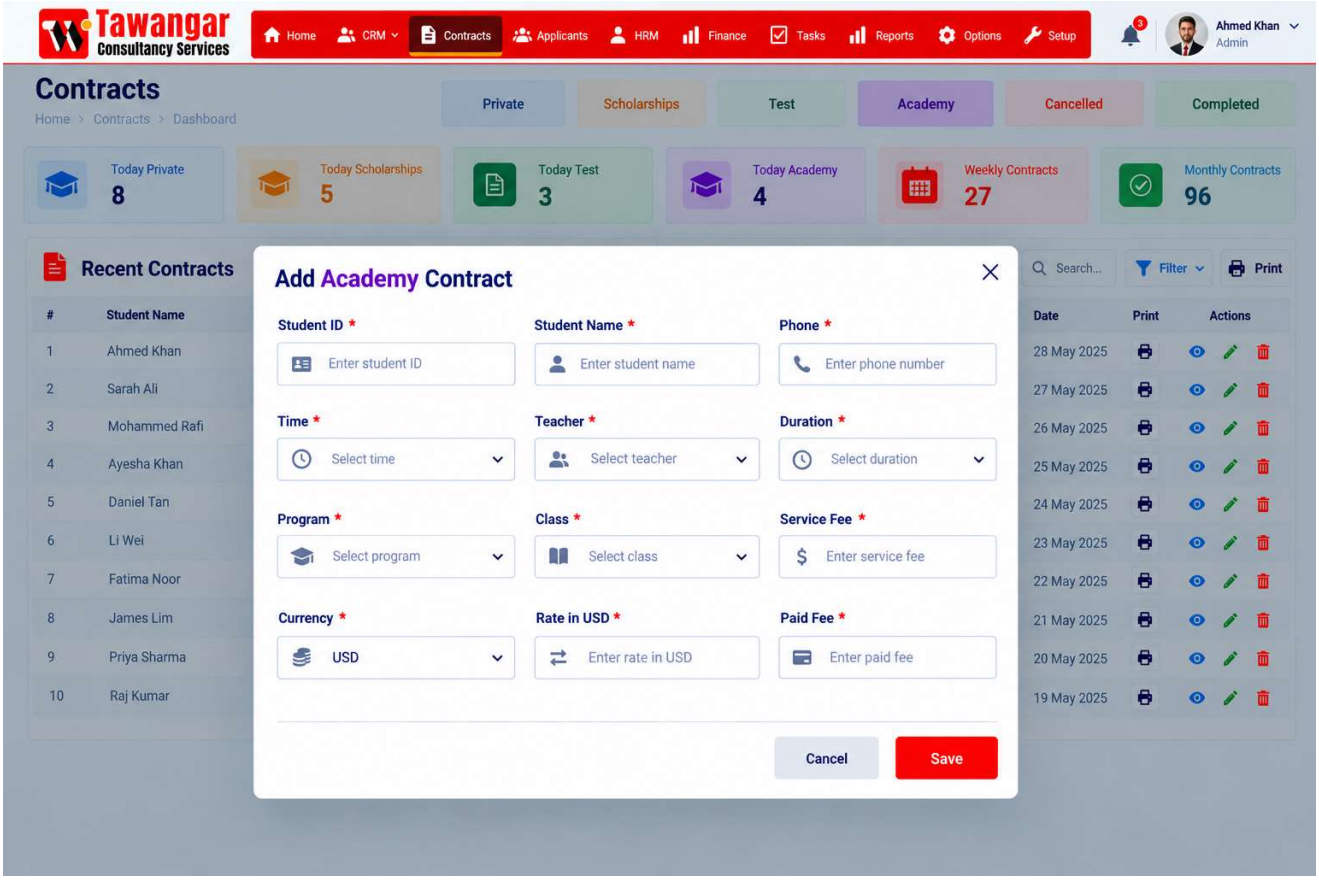

8. Click on Contracts /**Test**

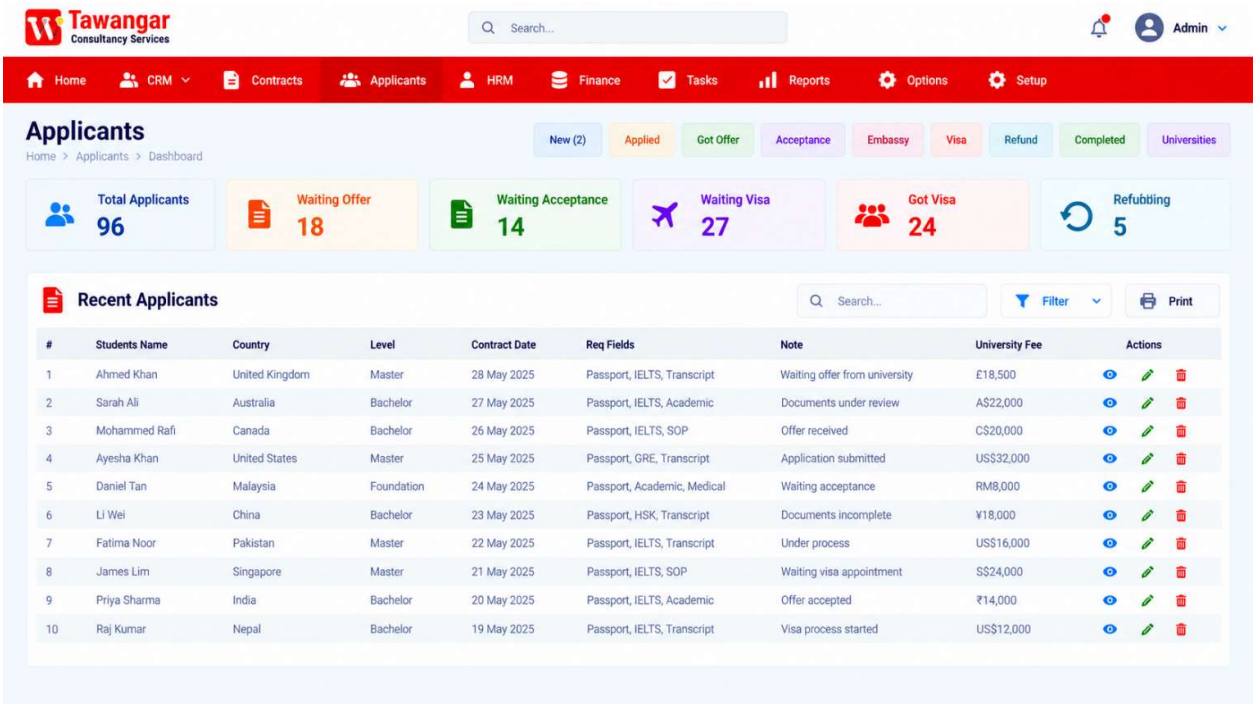

Host and domain, solutions, others have about same | Bill have 2 copy in one page

9. Click on contracts / **Academy**

Note: In above tables all show records show | cancelled Buttons are not required Just note this (we must have 2 section for admins and Finance **Cancelled and Completed)** contracts sections to view

10. Applicants sections (admissions process lists and admissions can send from one list to others)

Note:

All others Parts also follow up design of contract and CRM sections

No any sub menus required
